Fully-Automated Detention Prevention Program

Liberia using a unique algorithm based system, is the only registry to provide this vital service free of charge. An industry leading innovative system using LRIT and AIS to ensure compliance and preparedness for port state control inspections. An average of 5,200 monthly zone notifications and ANOAs are processed each month, with multiple detentions prevented globally.

Benefits :

- Ensures compliance and **prevents overdue inspections**
- Provides zone-specific info and checklist prior to arrival
- Vessels with PSC history receive support to prevent future detentions

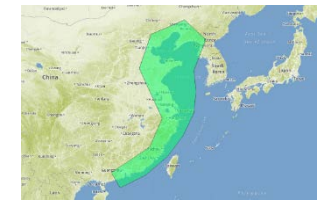

PSC Detention Reduction

2018-2020 YTD (internal records)

Australia

China Agreement on Maritime Transport

Liberian flagged vessels get a preferential 28% discount on all port tonnage dues in China. This can translate to a reduction of approximately \$100,000 in port fees, which has an effective net increase in time charter equivalent rate of \$1,000 per day based on a 100-day voyage.

China Tonnage Dues

Cost Savings Examples

	TYPE	NT DWT	1 YEAR			90 DAYS			30 DAYS

LNG & Offshore Divisions

The Liberian Registry recently added LNG & Offshore Divisions that are based out of Houston, Texas

Features :

- The Divisions are led by former US Coast Guard LNG & Offshore experts.
- The Divisions will ensure newbuilds and operating vessels are compliant with all US and International requirements.

Harmonized Audit Program

The Liberian Registry has trained a global network of over **450 nautical inspectors and auditors** to serve as exclusive ISM and ISPS lead auditors for Liberian flagged ships.

The Challenge

The amount of Vessel Inspections (ASI, ISM, ISPS) has increased, impacting the safety of the vessel and crew rest hours.

ASI : 4 - 5 Hours
ISPS : 6 - 8 Hours
ISM : 8 - 10 Hours
Total : 18 - 23 Hours / 3 Visits

Liberia's Solution

Liberia's **Harmonized Audit Program**: a trained global network of nautical auditors & inspectors to serve as exclusive ISM and ISPS lead auditors for Liberian ships.

ASI, ISM, ISPS : 7-10 Hours / 1 Visit

Save 2 Vessel Visits & 16 Working Hours

MLC 2006 Verification & Certification Services

The same lead auditors that perform Liberia's Harmonized Audit program also carry out ship verification and certification as mandated by MLC, 2006.

MLC Block Fee Agreement Advantages:

- DMLC review, approval, and unlimited amendments
- Initial and intermediate MLC inspections & certification
- Annual support and PSC protection

Special Compliance:

- 100% of Liberian fleet is MLC Compliant
- 60% of Liberian fleet is MLC Certified by Liberia's own global network of inspectors.
- Annual support and PSC protection

SEA System

Liberia's Award-Winning Exclusive Application

SEA System is a versatile and easy-to-use web-based system that allows filing agents to apply for Liberian Seafarer's Documents electronically

About SEA System :

- Cost Savings : reduced courier, no paper application fees, and no administrative costs. Savings of thousands of dollars.
- User-friendly
- Accessible 24 hours a day, 7 days a week, 365 days a year
- Reduced turnaround time and improved accuracy
 - Receive CRA within minutes of application
 - Permanent documents issued within 2-10 days, and even same day issuance upon special request
- No access fee
- Dedicated team of Client Service Representatives

WayPoint

Online Client-Interface System

Liberia's state-of-the-art online client interface system provides unparalleled interaction with the Flag and user friendly access to real-time fleet details.

Features :

- Issues certification services via **online client portal**
- Vessel Managers / Operators can apply for
- WRC, BCLC, and CLC Compliance Certificates
- Clients can access certificates (with the ability to print duplicate copies), **view / pay invoices online** and request inspections / audits

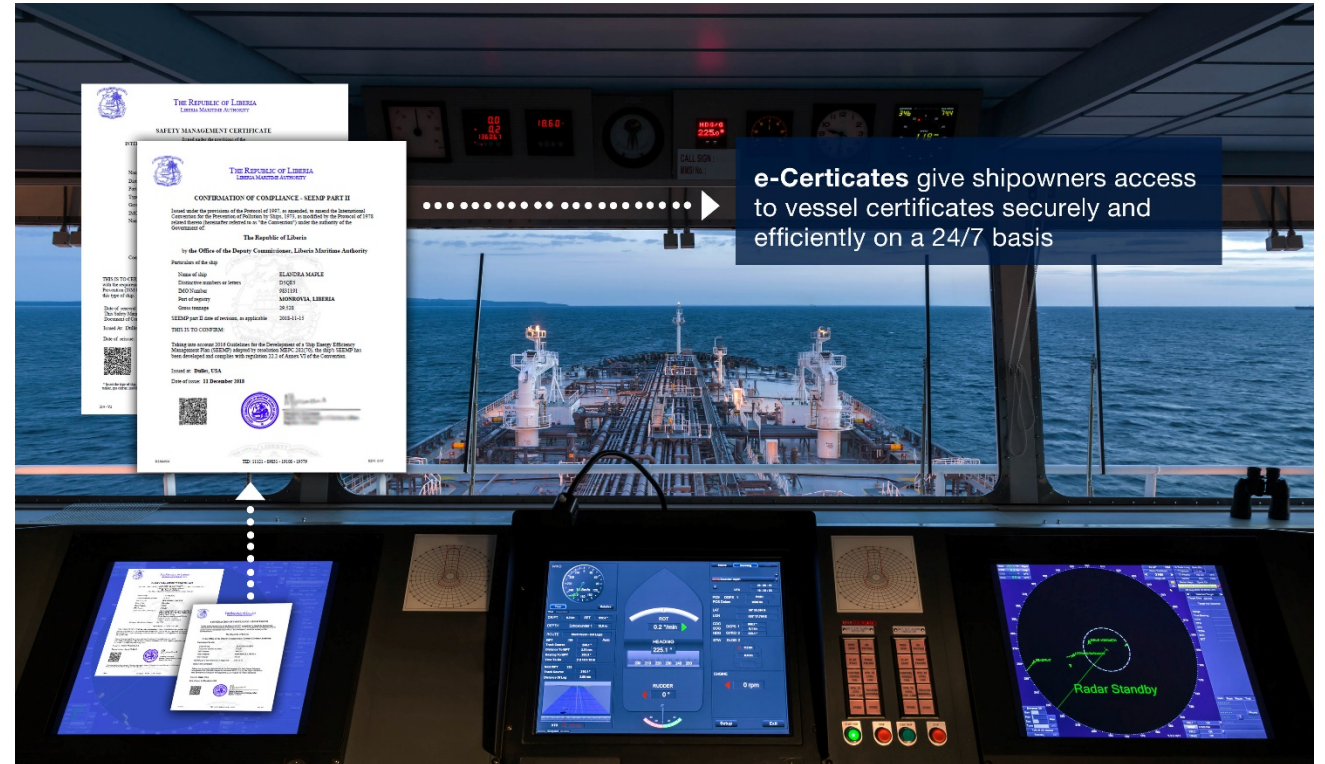

e-Certificates

Secure Electronic Vessel Certification

The Liberian Registry offers e-Certificates – Secure, online certification and verification. **Free of charge.**

About e-Certificates

- Issued in secure PDF format
- Provided via e-mail
- Recognized by the IMO
- Digital signatures are in compliance with Liberian Electronic Transaction Law
- Available on a 24/7 basis

Unique Products & Services

E-ORB

Liberia's software application is designed to replace the traditional paper oil record books (ORB) (Part I and Part II) and facilitate accurate ORB entries into an efficient electronic format.

Green Award Program

Liberian Registry is the first flag state to participate in this program under which eligible shipowners are offered significant annual tonnage discounts.
